

## Farewell Party in Honor Bob Currie Held Mon. Eve

About 20 young people gathered at the home of N. Bassarab on Monday night, to honor Bob Currie, who is leaving with his parents at the end of the month to reside in Calgary.

Bob, born and raised in Bassano, has always been an interested participant in youth activities in the town. For the past three years he has successfully captained the local Cadet Corps to the R. B. Bennett

Shield, emblematic of all-round proficiency. During the last year, he has been secretary of the Scout

Troop. Besides this, he has held many executive positions in the various school literary clubs. He was editor of "Le Gaillard", the High School Year Book, that goes on sale next week. Although not taking part in many athletic sports, Bob

From all reports, a very merry time was had by all. Following lunch Bob was presented with a gold tie pin, bearing the good luck charm of

the horse shoe and wishbone. Dancing continued till the party broke up in the wee' sma' hours.

On behalf of his friends we wish Bob good luck in his new home, and best wishes for success.

### E.I.D. NOTES

The farmers who wish to do road work for credit on their District accounts will kindly call at or write to the Head Office and indicate what amount they are prepared to work off.

As it is essential that these applications be in the hands of the District at the earliest possible moment, applications should be filed in the Dis-

May we take this opportunity of

expressing our sincere thanks to the many friends and neighbors, the nursing staff of the local hospital, and Dr. Scott, for the assistance, kindness and sympathy extended to us during our recent sad bereavement.

time, although reports did indicate that both would be poor. Now, with threshing and combining being conducted on early crops, the ones to suffer most severely during the spell, farmers are beginning to look more

To date, only early sown crops have been harvested. Naturally these have not withstood the summer quite so well, and both grade and yield are fairly low. It is estimated the av-

Later sown grains appear to be healthier than early sown grains, and estimates say they will average on

the whole from 12 to 22 bushels per acre. [They are also expected to grade considerably better, in the one and two class.

Light showers in the district during the early part of the week, and

over the week-end, have not hindered operations to any great extent. Although several outfits closed down for part of a day to await drier conditions.

Frost is reported to have done con-

With crops averaging at the estimate mentioned above, which is several bushels in excess of last year's

yield, farmers in the district have a right to feel somewhat pleased with themselves, after such a strenuous year.

**SPORT FLASHES**

Highlights of Local and International  
Sporting Features, by H. Broadfoot.

Calgary's Red Raiders, Brooks Football machine, seemingly had its gears stripped as Wayne Wheeler and the Winnipeg Blue Bombers gained a 34-1 victory over the westerners.

Playing on a slippery surface, the teams found it difficult going. Here is a good opportunity to show the value of teamwork. After actually speaking to a spectator of the Friday night clash, your sports center was told the Calgary interference, and signals were being mixed.

Well, Haughlin has a wealth of material, but I'll bet a plugged nickel Pitts and Company of the Blubber Peters take him into camp.

Displaying great form and courage, young Gordon McLaws, local boy, and members of the Calgary Lawn Tennis Club, battled his way to the finals in the boys' singles, while pairing up with Pop Pitts for the doubles. His mastery of all strokes kept a bewildered trio of shotmakers from reaching the coveted birth. Greig and Beucher are two names not to be easily played with. However, the experience of Harry King stopped the "dark horse" from the podium. The doubles, pale, McLaws and Pitts, were defeated by King and his partner, Nive going, Gordon.

Bobs Slabert, playing coach of the Montreal Canadians and one of the greatest all-round hockey players, dressed last night at an attempt to recover an inflated inner tube that had floated away from his "little daughter," Boston Bruins and the Canadians then an exhibition game for the family of the deceased. In all probability other players of various N.H.L. teams will line up with them.

With an interscholastic track and field meet in the E.H.L. home up in the near future, track shoes and shorts should be showing up. With two track meets scheduled, we see three local athletes hard at the training gruel. "Bussell" Bacon and Ron McLaws are putting finishing touches on training in preparation for the Taber meet on Monday, while young "Scotty" Cathro gets in shape for the interscholastic at "H." However there may be more to this story.

**THE SNAPSHOT GUILD****LABOR DAY**

Shoot holiday fun "on the wing." Don't let subjects pose—and you will get gay, lively snapshots.

**LABOR DAY** weekend is the last big outdoor holiday of summer. For most of us, it means a trip, a week-end camp, or other special outing—and plenty of pictures to remind us of summer fun during the coming winter months.

Are your cameras ready? And have you made your Labor Day plans with a view to picture chances? That's always a good idea when you're planning an excursion—keep the camera in mind, and select a route, or holiday spot, that you know is full of picture opportunities.

The more fun and activity you can pack into the week-end, the more snapshot chances you'll have. Whether something is going on, your camera should be ready for action. A picnic or corn roast, an amusement-park tour, a fishing trip, a mountain hike—all these are chances full of picture material if you just keep your eyes open and your camera ready.

On a picnic, picture your crowd eating the table and eating—don't wait until they get through. At the pool, or the beach, picture them swimming and diving, or enjoying some other beach sport—not posed on shore.

Watch your exposures, and keep them "in step" with the prevailing light. Along shady streams, there is very little light, so you must use a large lens opening and a slow shutter speed. But on the beach, or when

Arrow Lake, B.C.

The Recorder,

Bassano, Alta.

To the Editor:

At the time of slicing Sweden-Land from Czechoslovakia, it was announced that the new frontiers were guaranteed by the 4-Powers which met at Munich. Future security was the reason for one of the most flagrant acts of treachery in history. "Peace in our time" was the message brought back by Chamberlain. Where is it? Speeches are made daily which are just so much flamboyant bunkum. Is it not extraordinary that, when it comes to breaches of faith, so-called Christian states are right there with the goods.

There was a time not so long ago when a man, be he ever so humble, was ever under the watchful eye of Great Britain. The Empire rulers of those days were men of courage, strength and vision. Cities were settled as they appeared, and Britain had friends. If not faced and adjointed as they arise, cities have a cumulative tendency: they pile on. And that is the present predicament. A strong man is the last to look "quint." But, when it comes he does not cower; he stands. Had Great Britain stood alone for justice from the Great War, the world would now be in such a hopeless muddle. Porcine betrayal begets another. The treaty of Versailles which denied justice to Montenegro and Armenia is due for the final knockout.

Every man may strike a blow for liberty by a boycott against despotic oppressments. The economic thumb screw will bring a nation to time if forcibly as the arbitrament of arms. The Ship of State is steadily drifting towards the breakers, and there is need of a pilot whose faith, will and loyalty are above suspicion. The best way to avoid war is to have the nations know that we are ready to fight. That is the spirit that built up the British Empire and the spirit that will maintain it.

Understanding all the blather of pacifism and appeasement, the crown is a strong tie but not strong enough to escape the penalties and evil results of political perfidy. It is not a man's duty to be a pacifist; it is a man's duty to be a warrior. And, some to do him honour. "Oh, the sadness; of sights in this world of sin." Is Old John Bull with his tail tucked in?

## Heard 'n Seen

From what we hear, on Fire Practice nights, Art Bowman is not a man to be trusted. How about it, Gordon?

It is rumored that a certain local gentleman has quite suddenly taken an interest in Coonies. Maybe Duke could throw a little light on the subject.

Who was that man with all the handbags Sunday?

Heard—Four very loud voices at the lane behind McKee's store early Tuesday morning. It couldn't have been Jim, Bob, Doug and Hanna, could it?

Bob Bacon claims "there just ain't no justice in Cootie."

OLLIE and DUTCH from out Crowfoot way say they never saw a telephone pole that could compare with the one they met up with Saturday night.

Say Ben, when do you want that Vacuum Cleaner delivered?

STAN HASKATY says that one evening in Glenora is like a day dream. You figure it out.

"KUDOWAN situation unsettled"—headline in newspaper. So are a couple of local businessmen. They're considering reducing their bet 50c.

Ed cranking: Willie at the controls. "You can hear over so little."

DID you see H. H. Johnny B. is calling out "one too!" You can't miss it.

D. L. Downs overhead explaining the intricacies of the modern age—namely radio.
